Statement of Operations, page 46

1. We note your response to comment 2 in our letter dated October 11, 2013 and understand that you do not include depreciation and amortization in cost of goods sold because these costs are not directly or indirectly related to bringing your products to their existing location and condition. Please confirm that you will expand your financial statement footnote disclosure in future filings to clarify why depreciation and amortization is not included in your cost of goods sold. Please provide a draft of your proposed disclosure in your response.
